DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see amendment, filed 28 December 2004, with respect to the claims have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

Allowable Subject Matter

2. Claims 1, 3, 4, 10, 13-16, 19, 20, 22, 23, 29, 32-35 and 38 are allowed.

3. The following is an examiner's statement of reasons for allowance: Regarding claims 1, 3, 4, 10, 13-16, 19, 20, 22, 23, 29, 32-35 and 38 the examiner notes that although the prior art teaches the use of magnets to secure items on display screens (see for example Jaeger) as well as the placement of a camera between the user and the display screen (see for example Karube), the claimed coupling of first and second magnets secured to a display housing in order to secure a camera between a user and a display wherein the magnetic force alone secures the second magnet to the back side of the display as claimed is not taught or fairly suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
